MULTIPURPOSE SCISSORS FOR PLASTICS

Article number: 120210

Multi-purpose scissors for plastics, practical set, consisting of quality scissors and 5 interchangeable cutting inserts, in impact-resistant, handy plastic box, indispensable for almost all manual work in electrical and plumbing installations, multi-purpose scissors for fast, crush-free cutting work on plastic, rubber, wood parts and flat ribbon cables (except hard metals), solid precision cutting blade (cutting length 57 mm) made of case-hardened tool steel (> 52 HRC), resharpenable, special cutting geometry for very easy cutting, eccentrically mounted pivot for pulling cut makes troublesome deburring unnecessary, with opening spring and locking device, ergonomically shaped plastic handles with slip guard. 5 different cutting inserts made of light metal, can be replaced in seconds: flat-straight insert (is pre-mounted in the shears) for general cutting work on flat materials such as plastic profiles, flat cables, cable ducts, skirting boards, etc., miter insert with stop angle and markings for angular cuts 45° -60°- 75° -90° -105° -120°, profile insert 90° for cutting box profiles up to 25x45 mm, e.g. small cable and wire ducts, as well as for hard or thick-walled plastic pipes and hoses up to 25 mm ø, round profile insert 16/19 mm with one round guide each 16 mm((5/8")- and 19 mm (3/4)- ø as well as round profile insert 25 mm with one round guide 25 mm (1"), ideal for burr-free cutting of flexible and hard plastic pipes and hoses. Not suitable for halogen-free materials.

Length (mm)	320 mm
Width (mm)	57 mm
Height (mm)	255 mm
Weight (kg)	0,91 kg

Attribute	Value
Long	225 mm
material	Stahl
Surface protection	verchromt
handle cover	Kunststoffgriffe
Handle design	1-Komponenten
Weight	910 g
Ratchet design	No
